Quick Guide:

1. Create Spaces
2. Create & import repos
3. Invite users to Spaces
4. Create & Review Merge Requests
5. Relate tickets with Commits & Merge Requests

Creating Spaces & Repos

A Space contains your repos, tickets and other tools accessible for users in this space. Repositories are created inside the Spaces. Only space users will have access to space items.

Additionally you can set individual permissions in space settings.

[Learn how to create a Space](#)

Tạo team

The screenshot shows the Assembla Lab Project interface. At the top, there's a header with a search bar and navigation links like 'Events', 'Email Notifications', and 'Receive Events'. Below the header, a stream of activity items is shown:

- optimus invited khoalnt91** (2020-12-26 19:28:25)
- optimus created SVN Tool** (2020-12-26 19:27:14)

To the right of the stream, there are several filter and search options:

- Filter activity**: Includes 'Show from' (2020-12-26), 'Going back' (14 Days), and 'All users' dropdown.
- Project Management**: Includes checked checkboxes for 'Team Show' and 'Permissions changes Show'.
- Repositories**: Includes checked checkboxes for 'Code commits Show', 'Code comments Show', and 'Svn actions Show'.
- Operations**: Represented by a blue circular icon with a white square inside.

Giao diện các thành viên trong team

The screenshot shows the Assembla Team page for the 'Lab' space. At the top, there's a message about a free trial expiring in 14 days. Below it, the 'Space Team' tab is selected. A table lists team members:

User	Login	Last login	Permission	Tag
optimus (Report)	khoa91nt	Logged in 1 hour ago	✓ Owner	
optimus (Report)	khoa91nt91	Logged in 2 hours ago	✗ Member & Payer	Remind

On the left, there's a sidebar with 'Add team members' and search/filter options. Below the table, there are sections for changing permissions and adding invitees.

To change team member permissions
You can promote to higher permission level with ↑, and you can demote with ↓. Every space must have at least one owner.

To add or invite team members
Search in the Add Team Members box by login name or e-mail address. If the user is already in the database, you will have the option to select Add from the result list.

Account admin import project

The screenshot shows the Assembla Source page for the 'Lab' space. At the top, there's a message about a free trial expiring in 14 days. Below it, the 'Source' tab is selected. A modal dialog titled 'C\Demo - Import - TortoiseSVN' is open, showing the repository URL: <https://subversion.assembla.com/svn/labsvn^lab.LAB/>. The dialog also includes an 'Import message' field with the text 'Admin up project' and checkboxes for 'Include ignored files' and 'Enable Auto-Properties'. The background shows a list of branches and tags.

In assembla you can use [textile](#), [html](#) or [markdown](#) to add some sugar to your readme files. Just add the extention to your readme file, so we can recognize the markup you want to use!

Assembla.readme

In assembla you can use [textile](#), [html](#) or [markdown](#) to add some sugar to your readme files. Just add the extention to your readme file, so we can recognize the markup you want to use!

Account member checkout project

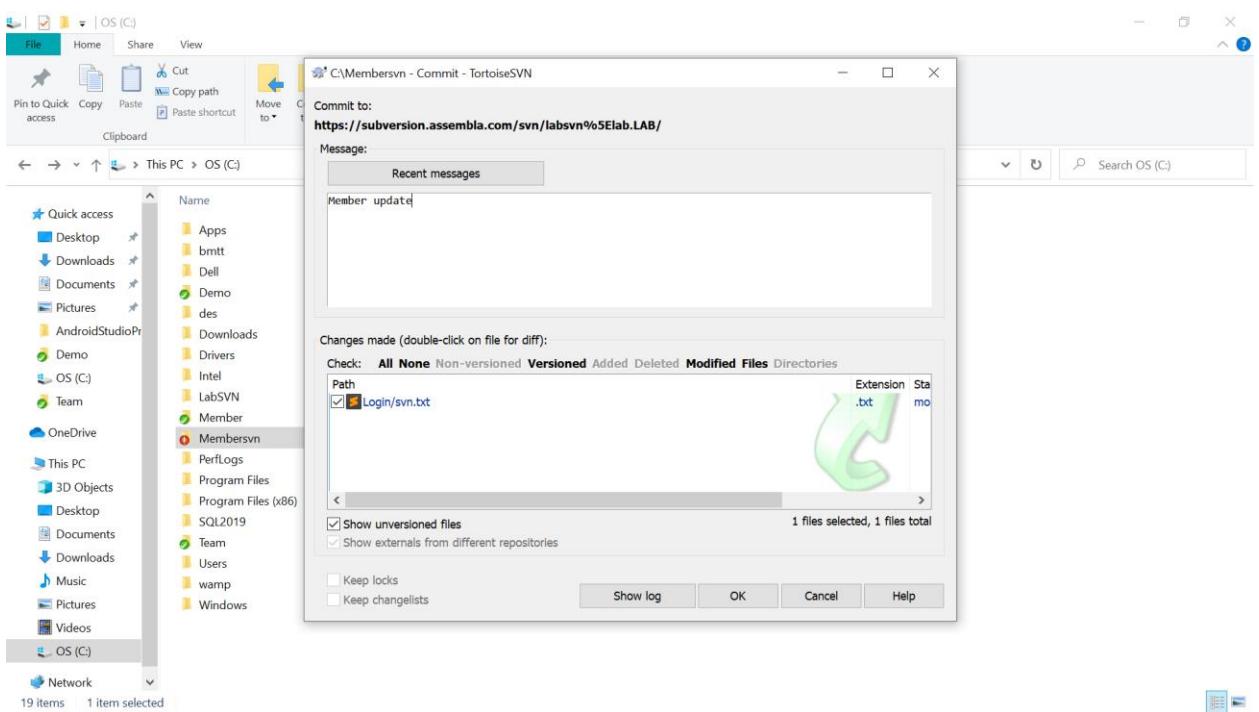

The screenshot shows the Assembla web interface for a project named 'Lab'. A 'Checkout' dialog box is open in the foreground, prompting for a repository URL (`https://subversion.assembla.com/svn/labsvn^lab.LAB/`), a checkout directory (`C:\Membersvn`), and other options like depth and externals. In the background, the main interface displays a stream of events: 'optimus invited khoalnt91' and 'optimus created SVN Tool'. There are filters for activity, project management checkboxes (Team Show, Permissions changes Show), and repository checkboxes (Code commits Show, Code comments Show, Svn actions Show). A blue message icon is visible in the bottom right.

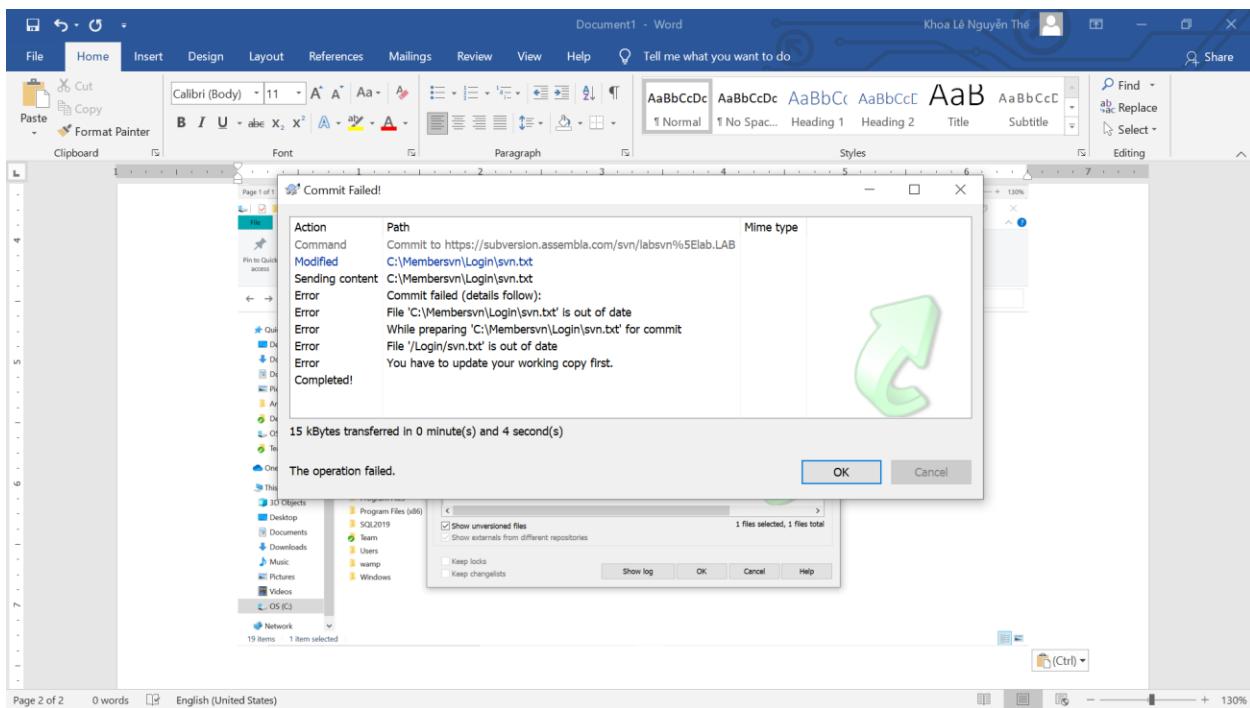

Admin chính sửa và commit

The screenshot shows the Assembla interface for the 'Source' tab of the 'Lab' project. It lists several commits: 'Login' (Admin up project), 'branches', 'tags', 'trunk', and 'readme.textile'. Each commit has a timestamp (e.g., 2020-12-26 19:52 or 2020-12-10 19:53) and a brief description. At the top, there are buttons for 'New Merge Request', 'Lock', 'Add', and 'Checkout'. Below the commits, a section titled 'Assembla.readme' provides instructions on using textile, html, or markdown in README files. A blue message icon is visible in the bottom right.

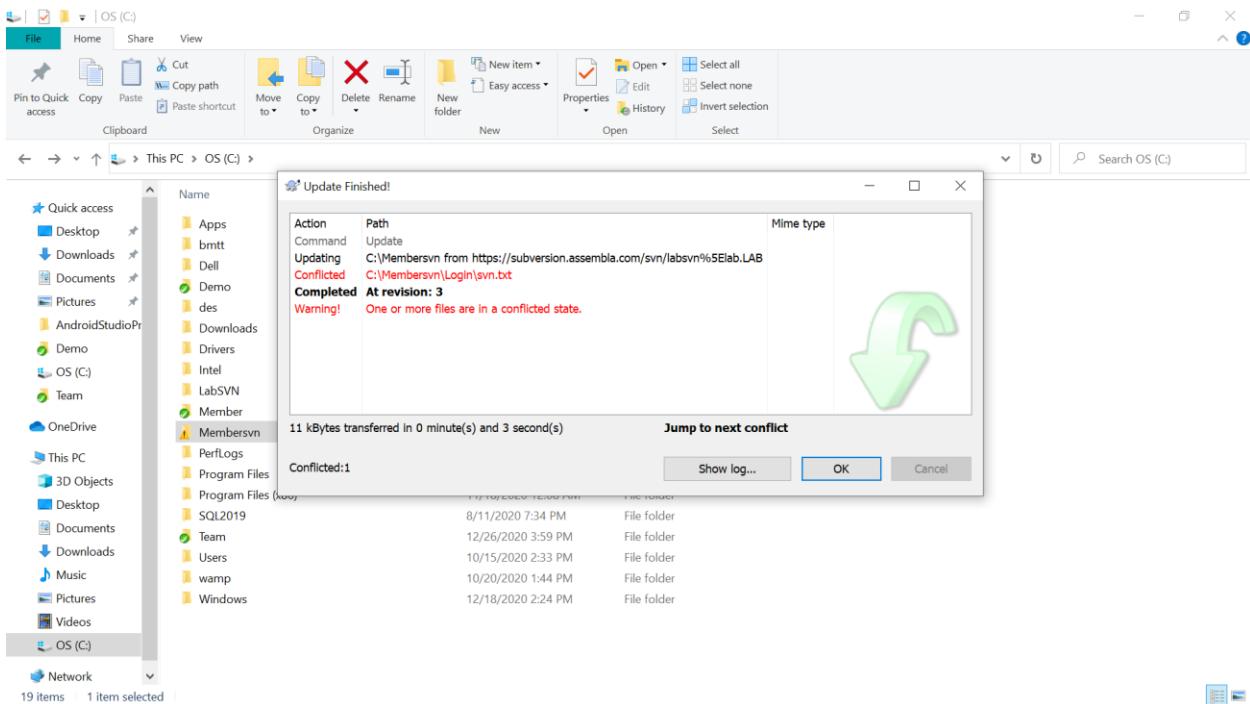

Member chỉnh sửa và commit

Update xảy ra conflict

Kiểm tra thay đổi file

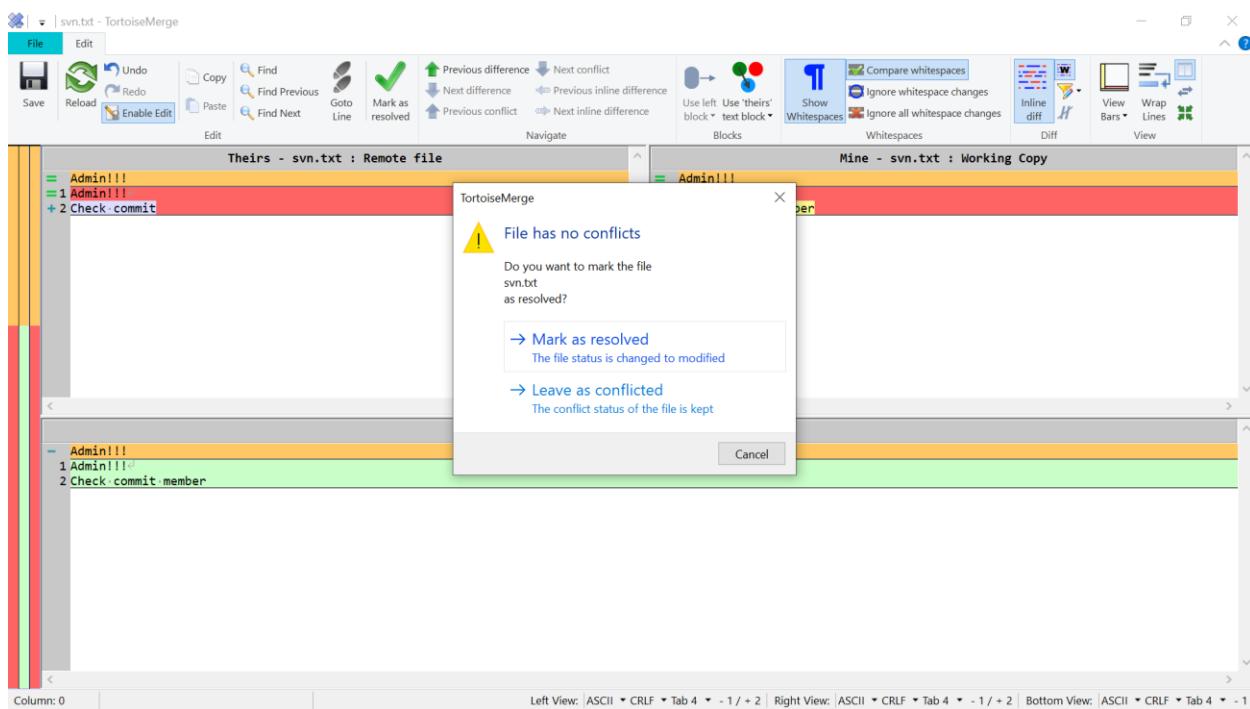

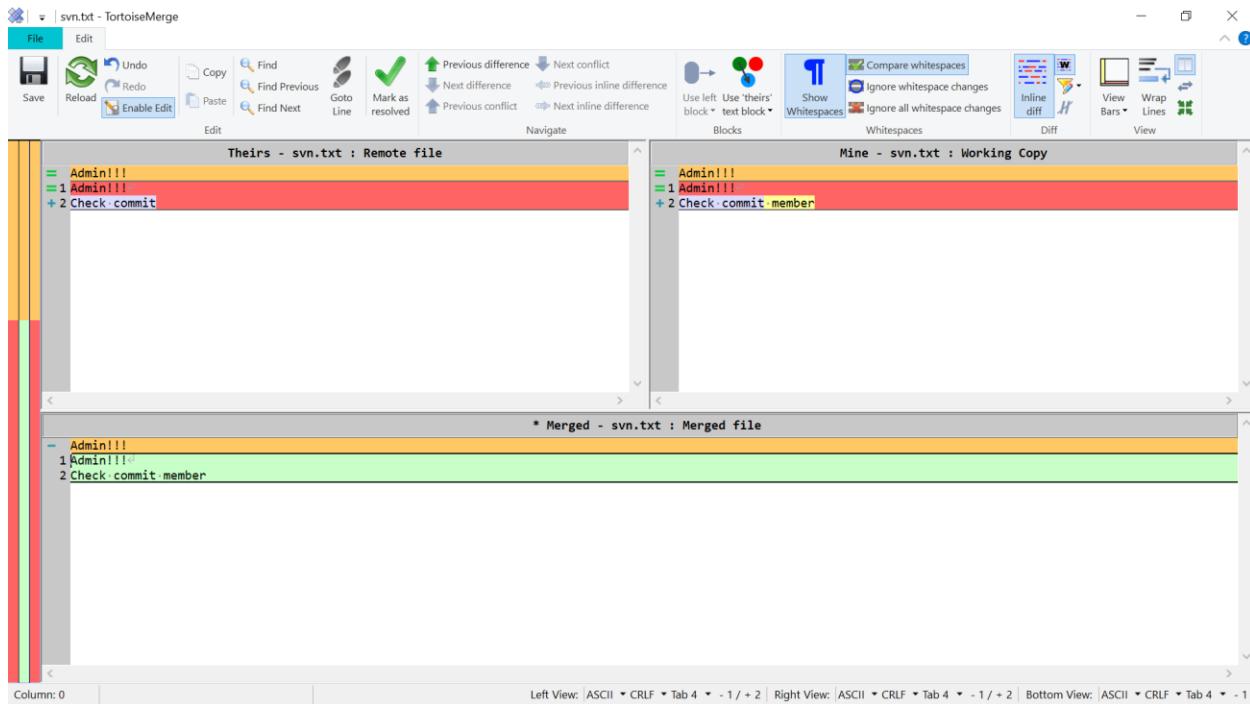

The screenshot shows the TortoiseMerge application window with the title 'svn.txt - TortoiseMerge'. The main pane displays a rejected patch hunk for 'svn.txt'. The code block is as follows:

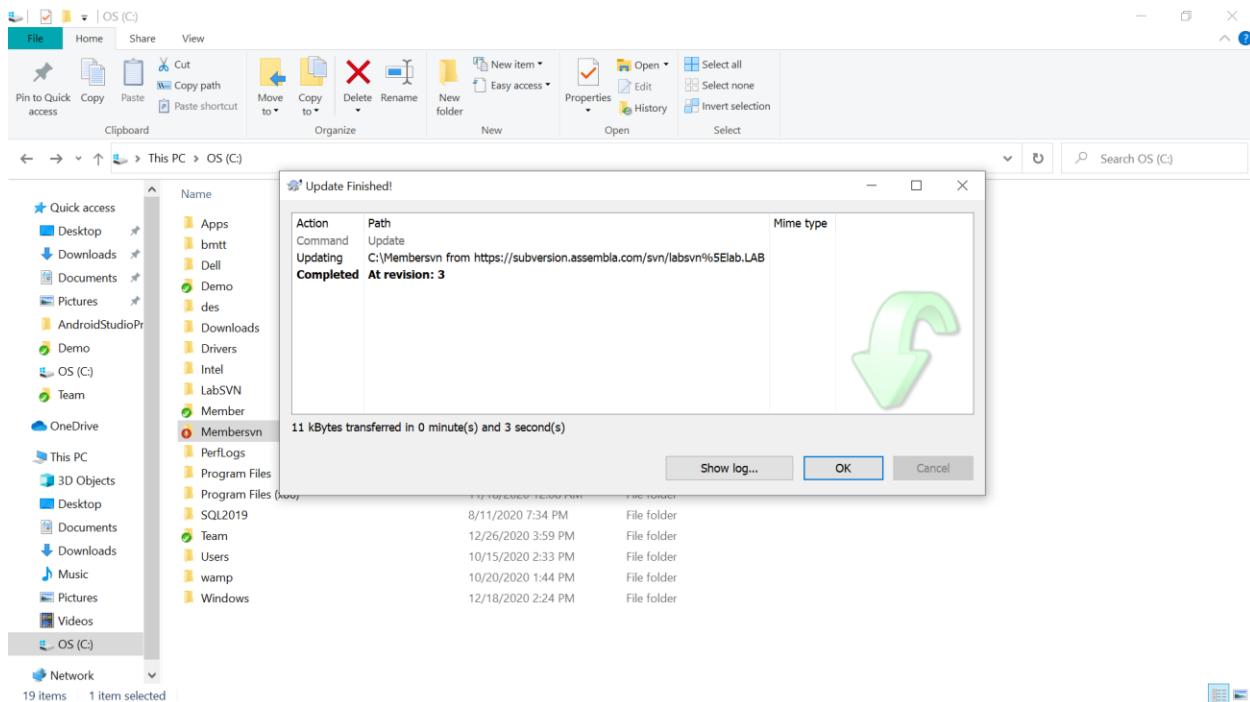

```
1 --- Login/svn.txt
2 +-- Login/svn.txt
3 @@ -1,6 +1,2 @@
4 <<<<< .mine
5 Admin!!!
6 -Check commit member|||||||.r2
7 -Admin!!!=====
8 -Admin!!!
9 -Check commit>>>> .r3
10 +Check commit
11 \ No newline at end of file
12
```

The interface includes a toolbar at the top with 'File' and 'Edit' tabs, and a menu bar with 'File', 'Edit', 'View', and 'Diff' options. The right side of the window has a toolbar with icons for 'Inline diff', 'View Bars', 'Wrap Lines', and 'View'. A status bar at the bottom shows 'Column: 0' and 'Marked words: L: 11534512 | R: 11534512'.

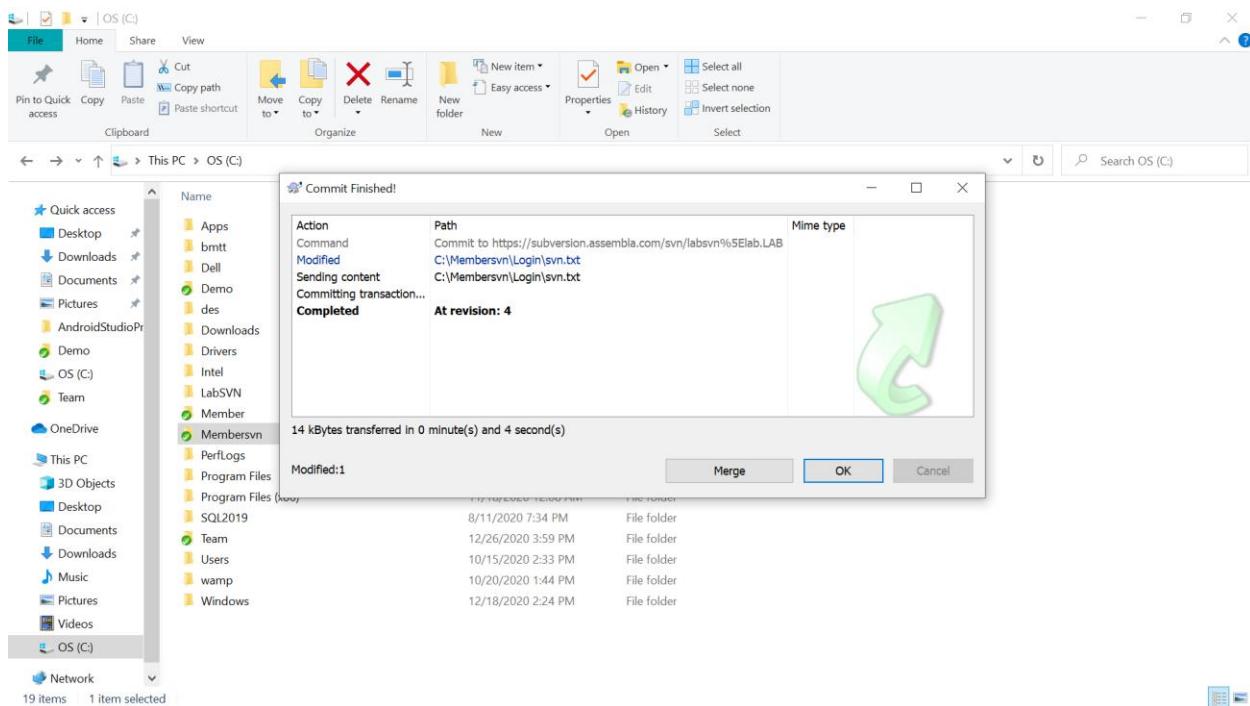

Edit conflicts

The screenshot shows the TortoiseMerge application window with the title 'svn.txt - TortoiseMerge'. The interface is divided into three main panes: 'Theirs - svn.txt : Remote file' (top left), 'Mine - svn.txt : Working Copy' (top right), and 'Merged - svn.txt : Merged file' (bottom). The 'Theirs' pane contains the text: 'Admin!!!', '1 Admin!!!', and '+ 2 Check-commit'. The 'Mine' pane contains the text: 'Admin!!!', '1 Admin!!!', and '+ 2 Check-commit member'. The 'Merged' pane shows the merged result: 'Admin!!!' followed by 100s of question marks. The toolbar at the top includes 'Save', 'Undo', 'Redo', 'Copy', 'Find', 'Paste', 'Enable Edit', 'Blocks', 'Whitespaces', and 'Diff' buttons. The status bar at the bottom shows 'Column: 0' and 'Left View: ASCII CRLF Tab 4 - 1 / + 2 | Right View: ASCII CRLF Tab 4 - 1 / + 2 | Bottom View: ASCII CRLF Tab 4 - 1 / + 2'.

Assembla.readme

In assembla you can use [textile](#), [html](#) or [markdown](#) to add some sugar to your readme files. Just add the extention to your readme file, so we can recognize the markup you want to use!

The screenshot shows the Assembla Source interface for the 'lab.LAB' repository. The main navigation bar includes 'Summary', 'Team', 'Stream', 'Integrations', 'Admin', 'LAB', 'Source', 'Commits', 'Compare', 'Merge Requests', 'Instructions', 'Import/Export', 'Security Scan', and 'Settings'. A message at the top states, 'Your free trial expires in 14 days. To continue using Assembla please select a paid plan [here](#)'. Below this, there are buttons for 'New Merge Request', 'Lock', 'Add', and 'Checkout'. The current view is 'branches', showing a single entry: 'newmember' by 'member' on 2020-12-26 20:39, with the commit message 'Branch member: Update new text'. The bottom of the screen displays standard browser navigation and search controls.

Tạo nhánh newmember

The screenshot shows the TortoiseSVN 'Copy (Branch / Tag)' dialog box over a Windows File Explorer window. The dialog box is titled 'C:\Membersvn - Copy (Branch / Tag) - TortoiseSVN'. It contains fields for 'Repository' (From WC / URL: https://subversion.assembla.com/svn/labsvn%5Elab.LAB), 'To path' (/branches/newmember), and 'Destination URL' (https://subversion.assembla.com/svn/labsvn%5Elab.LAB/branches/newmember). The 'Log message' field contains 'Create new branch newmember'. Under 'Create copy in the repository from:', the radio button 'HEAD revision in the repository' is selected. The 'Set explicit revision for these externals:' section shows 'Check: All None' and a table with one row: Path (empty), URL (No externals found), and Fixed... (empty). At the bottom, there are checkboxes for 'Create intermediate folders' and 'Switch working copy to new branch/tag', along with 'OK', 'Cancel', and 'Help' buttons. The background File Explorer window shows the local drive 'OS (C)' with various folders like 'Desktop', 'Downloads', and 'Documents'.

Merge Request trong giao diện assembla báo kết quả

The screenshot shows the Assembla interface for a 'Merge' request. The top navigation bar includes 'Source', 'Commits', 'Compare', 'Merge Requests' (which is selected), 'Instructions', 'Import/Export', 'Security Scan', and 'Settings'. A green '+ New Merge Request' button is visible. The main content area displays a merge request from 'optimus' to 'lab.LAB/branches/newmember/branches/member'. It shows the commit message 'Branch member: Update new text', the date '2020-12-26 20:39', and a note about automatically created directories. The 'Followers' section lists 'optimus'. Below the commit details is a rich text editor with a message placeholder: 'Type @username to send an instant message to your teammates or else type @team to mention your entire team'.

The screenshot shows the Assembla interface for the 'Source' tab of the 'lab.LAB / branches / newmember / branches / member' repository. The top navigation bar includes 'Source', 'Commits', 'Compare', 'Merge Requests', 'Instructions', 'Import/Export', 'Security Scan', and 'Settings'. A green 'Checkout' button is visible. The main content area displays a list of commits:

Commit	Date	Message	Author	Actions
Login	2020-12-26 20:39	Branch member: Update new text	7	<input type="checkbox"/>
branches	2020-12-10 19:53	Automatically created readme.textile and /trunk, /branches, /tags directories. We recommend you t...	1	<input type="checkbox"/>

readme.textile	2020-12-10 19:53	Automatically created readme.textile and /trunk, /branches, /tags directories. We recommend you t...	1	<input type="checkbox"/>

Below the commit list is a section titled 'Assembla.readme'.

Tạo 10 commit

The screenshot shows a browser window displaying the Assembla Commit List for the 'labsvn' repository. The commits are listed in chronological order from top to bottom:

- optimus 11 ★ Add text final (2020-12-26 21:20)
- optimus 10 ★ Admin add new text (2020-12-26 21:11)
- optimus 9 ★ New member add text (2020-12-26 20:50)
- optimus 8 ★ Create new branch newmember (2020-12-26 20:47)
- optimus 7 ★ Branch member: Update new text (2020-12-26 20:39)
- optimus 6 ★ Member update new text (2020-12-26 20:23)
- optimus 5 ★ Create branch (2020-12-26 20:19)
- optimus 4 ★ Member update text (2020-12-26 20:18)
- optimus 3 ★ Admin update 1 dòng text (2020-12-26 19:52)
- optimus 2 ★ Admin up project (2020-12-26 19:52)

A tooltip from 'Assembla Customer Success' appears over the 4th commit, containing the message: "Hi there! Do you have questions about Assembla's SVN solutions? 😊". A blue message icon with a red notification dot is also visible.
